

## Tenured full professor position in gravitational wave data analysis

The Research Center for the Early Universe (RESCEU) at the University of Tokyo invites applications for a tenured full professor position in gravitational wave data analysis. The successful candidate is expected to carry out a variety of projects related to gravitational-wave astronomy and astrophysics, and data analysis of the forthcoming KAGRA data in collaboration with the group in Institute of Cosmic Ray Research at the University of Tokyo.

Qualified candidates should have a PhD in physics or astronomy, and outstanding research records as well as the ability to teach physics at both graduate and undergraduate level.

Applicants should send by e-mail a single PDF document containing a cover letter, CV, publication list, summary of previous research, future research plan and teaching statement to [apply18@resceu.s.u-tokyo.ac.jp](mailto:apply18@resceu.s.u-tokyo.ac.jp) no later than October 26, 2018. At least three reference letters should also be sent to the above address by the same date on behalf of each applicant.

The School of Science at the University of Tokyo is actively promoting gender equality.
